

Lincoln County Liberty Bell

SECOND AMENDMENT DECLARATION

Let it be known that we, the people of Montana, stand in recognition of the true principle that whenever a government abandons the purpose for which we have created it and even becomes hostile towards that which it was once a defender of, it is no longer a fit steward of the political power that is inherent in the people and lent to this government with strict conditions.

The conditions are clearly defined in the United States Constitution and understood by the common man. Furthermore, to the extent that our government violates these conditions, they nullify their own authority, at which point it is our right and duty, not as subjects but as sovereign Americans, to entrust this power to new stewards who will not depart from the laws we have given them.

This being the case, let it be known that should our government seek to further tax, restrict or register firearms or otherwise impose on the right that shall not be infringed, thus impairing our ability to exercise the God-given right to self-defense which precedes all human legislation and is superior to it, that the duty of us good and faithful people will be not to obey them, but to alter or abolish them and institute new government laying its foundation on such principles and organizing its powers in such form as to us shall seem most likely to affect our safety and happiness.
