

Lincoln County Liberty Bell Instructions

1. Call 1 406 889 3185 This is the information line for the Liberty Bell system. It is a voice mail only line. Listen to the message and leave your phone number for more information and to agree to be notified with the Liberty Bell when it's activated in an emergency. We will call you back and answer your questions if you request that when you call.
2. When the Liberty Bell system is activated you will receive a call and a message as to what is happening and where to go. The rules for calling the Liberty Bell system will be published once the system is in place.
3. Once the Liberty Bell system is in place (after we have several hundred Liberty Bell declarations) a number will be published for the Liberty Bell that may include text messaging and/or an automated notification system that dials hundreds or thousands of numbers in minutes with the same outgoing message.
4. Go to <http://www.lincolncountywatch.org/libertybell.pdf> or get a copy of the declaration at the meetings, and sign and mail to the address on the declaration. This completes the process and you are part of the Liberty Bell system.
